

MD. HASIBUL HASAN

Full Stack Developer

ABOUT ME

Dedicated Full Stack Developer with a focus on building robust SaaS and POS applications. Proficient in the Laravel + Inertia + React stack with a deep understanding of multi-tenant architecture. Experienced in managing end-to-end development, from optimized database design to crafting modern UIs with Tailwind CSS and shadcn/ui. Passionate about writing clean, scalable code and delivering high-performance software solutions.

EDUCATION

Bachelor of Science (BSc) in Computer Science & Engineering (CSE)

American International University-
Bangladesh

2020 - 2024

SKILLS & EXPERTISE

Core Stack: Laravel, React.js, Inertia.js, PHP

EXPERIENCE

Full Stack Developer | TechFlow Solutions | Jan 2024 – Present

- **SaaS POS Development:** Developed and maintained scalable SaaS-based POS modules using **Laravel, Inertia.js, and React**.
- **Inventory & Billing:** Built core modules for **product stock tracking**, inventory adjustments, and seamless **billing/checkout flows**.
- **System Architecture:** Implemented **multi-tenant architecture** and role-based access control (RBAC) for organization-based systems.
- **Advanced Logic:** Integrated **thermal printer workflows** for invoice printing and automated VAT/discount/commission calculation logic.
- **Performance Optimization:** Optimized database schemas using **MySQL/MariaDB** and improved performance using **Laravel Queues, Jobs, and Redis**.
- **Modern UI:** Crafted responsive and user-friendly interfaces using **Tailwind CSS and shadcn/ui**.
